Dear Sir/Madam,

I am writing to express my interest in joining your organization in an Information Technology role where I can contribute my skills in software development, systems support, and network administration. My background in Information Technology, supported by academic training at KCA University and practical experience, has equipped me with both technical expertise and a proactive approach to problem-solving.

I have hands-on experience in programming with **Java, Python, and Dart**, and am well-versed in web technologies such as **HTML, CSS, JavaScript, and PHP**, along with database systems like **MySQL**. One of my key accomplishments is the development of the **Traffic Offence Report System**, a user-centred application designed to manage offences and driver records—demonstrating both my development skills and ability to deliver practical, real-world solutions.

In addition to my academic work, I have gained valuable industry experience through a part-time position at **Smartech Centre** and an internship at **Zetech University**. These roles enhanced my capabilities in system maintenance, user support, and collaborative teamwork, while strengthening my communication and troubleshooting skills.

I am enthusiastic about contributing to a forward-thinking team where I can continue learning and applying my knowledge to deliver impactful solutions. I would be glad to discuss how my skills and experience align with your organization's goals.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Sincerely,
Roy Ngure Mutua
